

# UKRAINE REFUGEE APPEAL

## TO THE WONDERFUL PEOPLE OF FRANKFURT

**A HUGE** thank you! It's been overwhelming to receive the offers of help from you. Our friends in the gastronomy business have been using their businesses as a location for donations to be dropped off. I would therefore like to thank IPB (Irish Pub Bornheim), Waxy's Irish Pub, BrauStil, and to the staff at Metropolitan School Frankfurt for the unbelievable amount of donations that we have been taking to the shelters.

The response has been so big that we can now focus on our efforts to the areas that are most needed. Since Thursday o'reilly's Irish Pubs, Metropolitan School Frankfurt, and WerksKuechen Catering have been feeding the refugees. Yesterday, we supported two refugee centres and our numbers for requests for food tripled. What began as a request to feed 25 moved to 50 refugees, and then we were contacted by another centre & asked for an additional 70 portions. **And we did it!**

The problem that we foresee is, that in the coming days, the centres are expecting more refugees. According to the shelter, there could be a need to feed 250 refugees a day by next week. We want to be able to do this, but the cost factor for this is huge and we don't know for how many weeks or months we will be able to do this without a substantial amount of money.

Our plan is to reach out to the city of Frankfurt to see how we can set up an official charity for donations. But this will take time, and we need urgent funds **NOW!** This is an emergency and we need to prepare hot food for the imminent arrival of tired, hungry Ukrainians.

As an initial immediate action, we have set up a Go Fund Me page for donations to fund the daily cost of producing these high levels of food. We're receiving a lot of requests on how to help, and this is how you can.

### SO WHAT CAN YOU DO NOW?

**Donate any amount.**

**Share the page among your own communities.**

**Consider what fundraising events you can organise to create maximum funds.**

This really is the next best thing we can do as a Frankfurt community. We need your support to continue to feed those families displaced from the Ukraine during this conflict.
